Subject: Grace & UniFirst Off-Property VIA Proposed Analytes

```
ATTACHMENT: L02171435(final).pdf
Joe:

We have reviewed the analytes for the off-property vapor intrusion assessment
considering the additional compounds listed in the EPA December 18, 2009
comments on the Draft VIA work Plan.  The revised analyte list and the rational
for the selection of compounds for analysis is presented in the attached letter.

If you have any questions regarding the proposed list please contact Tim
Cosgrave or Clayton Smith.
